

ENVIRONMENTAL POLICY

Scope

This policy is applicable to Richard Fader Pty Ltd supply and operations.

Commitment

Richard Fader Pty Ltd is committed to promoting ecologically sustained thinking throughout every aspect of its business.

Richard Fader Pty Ltd provides supplies and service to our clients in a manner that complies with all applicable environmental regulations, demonstrating through sound management practices that we care for the environment and the prevention of pollution.

Richard Fader Pty Ltd will

- Work cooperatively with communities and regulatory authorities to implement sound management practices to comply with current industry standards;
- Minimise waste, promote recycling and review approved suppliers and materials for environmental benefits;
- Provide appropriate plant and systems of work to minimise environmental contamination;
- Provide written procedures and instructions to ensure appropriate systems of work;
- Provide information, instruction, training and supervision to employees, contractors, customers and special personnel as required to ensure environmental sustainability;
- Continually improve our environmental performance by setting objectives, actions and targets; and
- Communicate our policy within our business and to the public.

Everyone is responsible for the environmental aspects of the business and for reducing their impact.

Richard Fader

Managing Director
